RE: CHECK 87947 and TA # 26249336 - \$2,000 DONATION

Dear Mr. and Mrs. Solomon:

Thank you so very much for your generous donation in memory of Joshua. Over the next several years, our program will continue to invest resources and time to further our understanding of the biology of brainstem gliomas. It is only through this approach that we will be able to devise therapies that improve our chances of curing children affected with brain tumors like Joshua's.

Your gift to the Brain Tumor Program from Joshua's Wish will enable our research staff to continue to make great strides in the advancement of finding a cure for childhood brain tumors.

Sincerely,

Amar Gajjar, M.D.
